INDUSTRY NUMBERING COMMITTEE (INC) ISSUE IDENTIFICATION FORM

ISSUE TITLE:

Request for Two (2) ANI II Pairs for 500 Service

*ISSUE ORIGINATOR: Josephine A. Gallagher
*COMPANY: Bell Atlantic
*TELEPHONE #: 703-974-8160
*REQUESTED RESOLUTION DATE:
(optional)

ISSUE #: 053
DATE SUBMITTED: 3/3/95
DATE ACCEPTED: 3/3/95
WORKSHOP ASSIGNED: 2-Digit ANI II
Assignment
CURRENT STATUS: Active
RESOLUTION DATE:

- *1. **ISSUE STATEMENT:** When 500 service is provided and the EC has performed the number translation and interLATA transport is required to complete the call, it would be beneficial for the Exchange Carriers to be able to indicate to the IC that the call started as a 500 call and the appropriate billing method. Two potential billing methods exist: 1) Calling Party Pays and 2) Called Party Pays. This would permit the IC to render the bill to the appropriate party subject to business arrangements established between the EC, IC and 500 customer.
- *2. **SUGGESTED RESOLUTION OR OUTPUT/SERVICE DESIRED:** It is recommended that the INC assign this issue to the 2-Digit ANI II Assignment Workshop for review and request assignment of two new ANI II digits to identify a 500 Service Call – Calling Party Pays and a 500 Service Call – Called Party Pays. The latter would be similar to the existing ANI II Pair 24 – 800 Service Call.
- *3. **OTHER IMPACTS (if any):**
 - PCS/N00 Portability Workshop activity relating to calling vs. called party pays
 - ICCF Access Arrangements for New Non-Geographic Services Workshop
4. **CURRENT ACTIVITY:** • *INC15 -- Issue introduced and discussed, with further points to be clarified on whether one or two pairs are needed and the issue of conditions for overriding existing ANI II pairs.*
5. **RESOLUTION:**

UPDATED: 4/7/95

* To be filled in by Originator

INDUSTRY NUMBERING COMMITTEE (INC) ISSUE IDENTIFICATION FORM
ISSUE TITLE:
500 Trouble Reporting Contacts

***ISSUE ORIGINATOR:** Richard Round
***COMPANY:** GTE
***TELEPHONE #:** 214-718-2496
***REQUESTED RESOLUTION DATE:**
(optional)

ISSUE #: 054
DATE SUBMITTED: 3/3/95
DATE ACCEPTED: 3/3/95
WORKSHOP ASSIGNED: PCS Number
Portability
CURRENT STATUS: Active
RESOLUTION DATE:

- *1. ISSUE STATEMENT:** It is imperative that service providers, transport providers and access providers have the ability to refer trouble reports to each other. There currently is no method to do this with the 500 NXX numbering resource.
- *2. SUGGESTED RESOLUTION OR OUTPUT/SERVICE DESIRED:** The NOF recommends that the 500 NXX assignment guidelines be modified to require service providers to provide trouble reporting information before being provided 500 NXX codes. The NANPA will forward this information to the NOF secretary: 1) Company Name, 2) Address, 3) Trouble Reporting Contact, 4) Trouble Reporting Number, 5) 500 NXX Code assigned.
- *3. OTHER IMPACTS (if any):** 800/900/500 Look up lists – NOF.
- 4. CURRENT ACTIVITY:** • *At INC15 the issue was introduced to the PCS N00 Workshop. All participants were asked to review the issue and contribution (PCS-49 from AT&T) addressing the issue which will be discussed at INC16.*

5. RESOLUTION:

UPDATED: 4/7/95
